## BRODA

When it comes to rehabilitation care, the right wheelchair and seating system can be the difference between a positive patient outcome and a poor one. Broda is committed to configuring wheelchairs that are tailored to the needs of each individual user.

With tilt functionality, dynamic rocking functions, removable arm supports for easy side transfers, and a variety of available leg supports and accessory options, our E1161 coded rehab wheelchairs are ideal for many use cases.

The Matrx® Seating Series from Motion Concepts is a simple and yet highly effective solution to meet the widest range of user needs.

As the landscape of seating changes, Matrx® stands out for its dedication to innovation, quality, and comfort.

All wheels can convert to casters

2-in-1 solid seat and commode

Configurable with either anti-rust, PVC mag wheels or cost-effective casters

Fold-up arm supports and swing-away leg supports

#### **RECOMMENDED FOR:**

Those at highest risk, with a history of or existing skin breakdown.

**Cover** - Moisture resistant Startex cover with zippered side pocket, lifting strap, slip resistant base and hook and loop fasteners for attachment to chair.

**Liner** - Moisture proof urethane slipcover

**Fluid Sac** - Non-temperature sensitive, no kneading or maintenance required. Three chamber design keeps fluid where it is required. Provides envelopment and shear protection to bony prominences.

**Foam** - High resiliency (HR) molded foam made with UltraFresh antimicrobial for odor protection. Contoured pelvic well maintains level pelvis and helps prevent sliding. Waterfall front edge facilitates safe transfers. Molded in loop fabric for easy and secure attachment of Fit Kit accessories if required.

#### **SPECIFICATIONS**

#### **RECOMMENDED FOR:**

Those at a moderate-to-high risk of skin breakdown.

**Cover** - Reversible Startex<sup>™</sup> outer cover - can be used fabric or wipeable side out, moisture resistant and breathable, hook and loop fasteners for attachment to wheelchair.

**Liner** - Zippered, wipeable Startex<sup>™</sup> inner cover for extra moisture protection. Easy access for cushion modifications

**Top layer** - BreZZy Gel foam with softer more comfortable feel and a mild cooling effect

**Middle Layer** - Co-molded viscofoam for optimal immersion and skin protection

**Bottom Layer** - HR (high resiliency) foam with multiple molded in positioning features. Maximum durability designed to prevent bottoming out.

Head Support Hardware

Head Support Hardware

The Loxx head support hardware features a tool-less adjustment lever, which makes it simple to position the head support pad in all directions. Dual pivot balls and a slide bar allow infinite choices for orientation choices. and a curved vertical post allows for lateral or forwardmounting positions.

HCPCS E0128 / E0955

The Elan head support hardware features six (6) adjustment points with infinite positioning opportunities. The Elan can be installed with a single tool. Optional tool-less adjustment levers provide easy position changes as needed. Multi-disk locking provides superior holding strength.

HCPCS E0128 / E0955

#### Flipp Hardware

Upgrade to the Flipp Hardware, and with the push of a button, you can flip back the head support pad. Compatible with both the Loxx and the Elan head support hardware.
