

Patient, Facility, & Caregiver Benefits

- Facilitates positioning for comfort and respiratory function
- Tilt and recline provides ease of use for frequent re-positioning
- Proper seating alignment decreases postural deviations
- Optional recline feature adds even more positioning options for optimal user comfort

Tilt and recline functionality allow easy repositioning of users

Removable arm supports make transfers safer for caregivers and patients

Posterior Tilt effectively opens the diaphragm improving digestion, oxygenation, and organ function

Comfort Tension Seating® increases support and sitting tolerance

Enhanced Positioning & Functionality
